OUR STORY

Blue Sports was created in 1999, when Eve Guilbault turned her dream into reality from her garage in Nicolet. From a simple roll of hockey tape to supplying NHL teams and reaching over 40 countries, the company has stood out with innovative products like the Walking Skate Guard. Today, with more than 25 years of history, Blue Sports continues to grow with the same passion and pride that have driven it since the very beginning.

HOCKEY LACES

FROM NON-WAXED TO HEAVY-WAXED

BLUE SPORTS™ laces for all skates and sizes. Some players prefer waxed hockey laces because of their ability to grip tighter or stay looser without coming undone.

While waxed laces are better in certain circumstances, there are disadvantages, too. Unwaxed laces are easier to grasp and untie, which is especially helpful to young players.

SKATE GUARDS

BUILT LIKE A SHOE

In 2015, we decided to develop a skate guard that could be walked with. The goal was to create a product with shoe-like properties. The first technical drawing of the prototype was produced in March that year. Several prototypes were developed and tested until the launch in 2016.

Produced in a shoe manufacturing plant, the **PREMIUM SKATE GUARD** is based on our **PLATINUM SOAKER**, we've added a wide cut-resistant band to the absorbent lining and an outsole made of 100% EVA made it slip-resistant.

Today we're in the 4th generation of the products, and this is now a category in the market.

INSOLE DESIGNED TO
WALK WITH YOUR SKATES

PREMIUM WALKABLE SKATE GUARDS

- 3" wide nylon webbing on the bottom of the insole
- Outsole design to walk & reduce slipping
- Water absorbing lining
